

Dr. Stefano Negrini is a specialist in maxillofacial surgery. He specializes in orthognathic surgery, endosseous implantology, juxta-osseous (subperiosteal) implantology, zygomatic implantology, pre-prosthetic surgery, and temporomandibular disorders. He graduated in 1990 in Medicine and Surgery from the University of Brescia and completed his specialization in maxillofacial surgery at the University of Ferrara in 2003. He is currently the sole director of the Negrini Medical Practice in Gussago (Brescia) and has been the Medical Director of maxillofacial surgery at the Spedali Civili Hospital in Brescia since 1999. Additionally, he served as a Level I Medical Director in the Maxillofacial Surgery Unit at the Istituti Clinici di Perfezionamento Hospital in Milan. Dr. Negrini has participated in over 80 seminars and conferences in Italy and abroad, some of which as a speaker, and is the published author of scientific papers.
